

## **Contents**

---

<i>Foreword</i> .....	(ix)
<i>Preface</i> .....	(xi)
<i>Contributors</i> .....	(xiii)

### **Chapter 1**

#### **Clinical Research – A Clinical Investigator’s Perspective**

1.1 Introduction .....	1
1.2 Scientific and Practical Aspects .....	2
1.3 Financial Considerations.....	3

### **Chapter 2**

#### **Medical Device Development, Process and Regulation**

2.1 Introduction .....	5
2.2 Categories of Medical Devices .....	6
2.3 Evaluation of Medical Devices .....	6
2.4 Regulatory Process .....	7

### **Chapter 3**

#### **Pre-Clinical Drug Development**

3.1 Introduction .....	10
3.2 Overview of Drug Discovery and Role of basic Sciences .....	11
3.3 New Approaches in Drug Discovery .....	11
3.4 Pharmacological Screening .....	14

## **Chapter 4**

### **Phases of Clinical Trials**

4.1	Introduction .....	30
4.2	Phase I .....	31
4.3	Phase II Studies .....	37
4.4	Phase III Trials .....	40
4.5	Phase IV Trials .....	40

## **Chapter 5**

### **Phase 0 - Microdosing Studies**

5.1	Introduction .....	42
5.2	Micro-dosing and Exploratory-IND Studies .....	43
5.3	Characteristics of an Ideal Candidate Drug for Phase 0-Micro-dosing Studies .....	43
5.4	Goals of Microdosing Studies .....	44
5.5	Technical Advances .....	45
5.6	Regulatory Issues .....	45
5.7	Patient's Perspective .....	45
5.8	Informed Consent Issues .....	46
5.9	Single-dose Toxicity Study in Support of Micro-dosing Studies .....	46
5.10	Advantages of Micro-dosing .....	46
5.11	Limitations of Micro-dosing .....	47
5.12	Conclusion .....	47

## **Chapter 6**

### **Clinical Research Planning**

6.1	Introduction to Clinical Trials .....	49
6.2	Types of Clinical Trials .....	51
6.3	The Planning Steps .....	52

## **Chapter 7**

### **Clinical Research Design**

7.1	Introduction .....	64
7.2	Elements of Trial Design .....	65
7.3	Types of Clinical Trial Design .....	71

## **Chapter 8**

### **Clinical Research Protocol**

8.1	Title Page .....	82
8.2	Signature Page .....	82
8.3	Contents Page .....	82
8.4	List of Abbreviations and Definitions .....	82
8.5	Summary .....	83
8.6	Background.....	83
8.7	Trial Objectives and Purpose .....	83
8.8	Study Design.....	83
8.9	Subject Selection .....	84
8.10	Subject Recruitment .....	84
8.11	Trial Interventions .....	84
8.12	Randomisations .....	85
8.13	Blinding .....	86
8.14	Data .....	86
8.15	Statistical Considerations .....	87
8.16	Compliance and Withdrawal .....	87
8.17	Interim Analysis and Data Monitoring .....	88
8.18	Ethical Considerations .....	89
8.19	Financing and Insurance .....	89
8.20	Reporting and Publication .....	89

## **Chapter 9**

### **Designing Case Report Forms**

9.1	Introduction .....	93
9.2	Uses of CRF.....	93
9.3	Well-Designed CRF .....	94
9.4	CRF Design Layout .....	94
9.5	CRF Field Designs .....	95
9.6	CRF Verification Before Use .....	95
9.7	Elements of Trial Design .....	96
9.8	Electronic Data Entry Forms .....	98

**(xviii) *Contents***

9.9	Conclusion .....	99
9.10	Points to Remember.....	99

**Chapter 10**

**Process of Randomization in Clinical Trials**

10.1	Introduction .....	101
10.2	Advantages of Randomization .....	102
10.3	Types of Randomization .....	102
10.4	Techniques of Randomisation .....	107
10.5	Implementation of Randomization Procedure .....	110

**Chapter 11**

**Investigational Medicinal Products**

11.1	Definition .....	112
11.2	Manufacturing, Packaging, Labeling, and Coding IMPs .....	114
11.3	Supply and Handling IMPs .....	114
11.4	Receipt of IMP, inventory, Storage and Accountability .....	115
11.5	Randomization code .....	116
11.6	Principles applicable to comparator product .....	116
11.7	Blinding Operations .....	118
11.8	Recall, Return, Shipment and Destruction of IMP .....	119

**Chapter 12**

**Multi-center Clinical Trials**

12.1	Introduction .....	127
12.2	Advantages and Disadvantages .....	128
12.3	A Common Protocol .....	128
12.4	A Coordinating Centre .....	129
12.5	Comparability of Participating institutions .....	131
12.6	Committees in a Multi-center Trial .....	132
12.7	Statistical Issues .....	133
12.8	Analysis of Results .....	134
12.9	Multinational Clinical Trials .....	135

## **Chapter 13**

### **Good Clinical Research Practice**

13.1	Introduction .....	138
13.2	Definition of GCP .....	138
13.3	Overview of the Clinical Research Process .....	139
13.4	Principles of GCP .....	142

## **Chapter 14**

### **Role and Responsibilities of Sponsor**

14.1	Introduction .....	159
14.2	Contract Research Organization (CRO) .....	160
14.3	The Sponsor and the investigational Products .....	162
14.4	Sponsor and Record Access .....	163
14.5	Safety Information .....	163

## **Chapter 15**

### **Role and Responsibilities of Principal Investigator**

15.1	Introduction .....	164
15.2	Competencies and Responsibilities of the Principal Investigator .....	164
15.3	Qualifications and Availability .....	167
15.4	Adequate Resources .....	167
15.5	Informed Consent.....	167
15.6	Investigational Products .....	168
15.7	Compliance with Protocol .....	168
15.8	Monitoring and Auditing .....	169
15.9	Source Data and Other Documentation .....	169
15.10	Safety Issues and Reporting of Serious Adverse Events .....	169
15.11	Premature Termination - Breaking the Treatment Code .....	170
15.12	Progress Reports, Trial Outcome and Final Study Reports .....	170

## **Chapter 16**

### **Ethical Consideration in Clinical Research – Special Reference to Developing Countries**

16.1	Introduction .....	174
16.2	Individuals Involved With Ethical Issues .....	175
16.3	Ethical Issues Related to Protocol Development and Study Design .....	176
16.4	Issues on Informed Consent .....	179
16.5	Ethical Issues During Conduct of a Clinical Research .....	180
16.6	Access to Post Trial Benefits .....	181
16.7	Need for Developed Countries to Assist Developing Countries in Capacity Building .....	182

## **Chapter 17**

### **Informed Consent in Clinical Research**

17.1	Introduction .....	184
17.2	Historical Background .....	186
17.3	Elements of Informed Consent .....	186
17.4	Language Used in Consent Forms .....	187
17.5	Informed Consent Waiver .....	188
17.6	Revising an Informed Consent .....	189
17.7	Reconsenting Process .....	189
17.8	Consent Obtained from Special Groups of Patients .....	190

## **Chapter 18**

### **Monitoring in Clinical Trials**

18.1	Introduction .....	203
18.2	Types of Monitoring in Clinical Trials .....	204
18.3	Key Participant in Monitoring of Clinical Trial .....	204

## **Chapter 19**

### **Quality Assurance in Clinical Research**

19.1	Monitoring-Details Presented in Chapter on Monitoring .....	216
19.2	Audit .....	216

19.3	Inspections .....	218
19.4	Data Management Metrics .....	220

## **Chapter 20**

### **Pharmacovigilance and Drug Safety**

20.1	Introduction .....	228
20.2	Terms Commonly Used in Drug Safety .....	229
20.3	The Specific Aims of Pharmacovigilance .....	229
20.4	Definitions .....	229
20.5	ADR Classification and Evolution .....	231
20.6	Causality Assessment Scales .....	234
20.7	Important of Post Marketing Surveillance and ADR Reporting .....	236
20.8	Characteristics of a Good Adverse Drug Reaction Report ....	237
20.9	Periodic Safety Update Report (PSUR) .....	237
20.10	MedDRA or Medical Dictionary for Regulatory Activities .....	239
20.11	Pharmacovigilance in India .....	240

## **Chapter 21**

### **Data and Safety Monitoring Board and Monitoring Plan**

21.1	Definition and Purpose .....	242
21.2	Data Monitoring Committee .....	243
21.3	Data Safety Monitoring Plan .....	244

## **Chapter 22**

### **Standard Operating Procedures**

22.1	Introduction .....	247
22.2	Standard Operating Procedures .....	248
22.3	SOP Template .....	251
22.4	Master Formulation Record .....	252

## **Chapter 23**

### **Archiving Clinical Research Documents**

23.1	Introduction .....	261
23.2	Stake Holders .....	262

23.3	What Documents Must Be Archived .....	263
23.4	How long Should the Documents be Archived .....	263
23.5	When to Archive Trail Master File (TMF).....	263
23.6	The Archive Building.....	265

## **Chapter 24**

### **Evidence Based Medicine**

24.1	Introduction and Overview .....	272
24.2	History .....	273
24.3	Types of EBM .....	273
24.4	Categories of Evidence .....	274
24.5	Categories of Recommendations .....	275
24.6	Statistical Measures .....	276
24.7	Quality of Clinical Trial Publications .....	276
24.8	Limitations of Available Evidence .....	277
24.9	Criticism of Evidence-Based Medicine .....	277

## **Chapter 25**

### **Clinical Research Data Management**

25.1	Introduction .....	279
25.2	Protocol .....	279
25.3	Randomisation .....	280
25.4	Data Management .....	281
25.5	Final Study Report .....	282
25.6	Retention and Securing of Records .....	283
25.7	Archiving by the Principle Investigator .....	283
25.8	Archiving by the Sponsor .....	283

## **Chapter 26**

### **Clinical Biostatistics**

#### **(a) Biostatistics for Clinical Researcher**

26(a).1	Introduction .....	285
26(a).2	Descriptive Statistics .....	286

**Contents (xxiii)**

26(a).3	Null Hypothesis and Alternative Hypothesis .....	286
26(a).4	Classifications of Data .....	288
26(a).5	Test of Hypothesis with the Correct Statistical Tests .....	289
26(a).6	Summary .....	290
<b>(b) Terminology Used in Biostatistics</b>		
26(b).1	Introduction to Biostatistics .....	295
26(b).2	Terminology used in Biostatistics .....	295
26(b).3	Sampling Unit .....	298
<b>Glossary .....</b>		<b>319</b>
